Polyester Fabrics

***APF* Polyester Lining Canvas**
Picture restoration support fabric. Strong, white, stable, non-shrinking.
Width: 200cm per m**14.75**
10 metre plus, per m**13.30**
per roll, approx. 25m, per m**12.25**

***APF* Polyester Restretching Fabric, Extra Wide**
White, untreated, fine weave.
Width: 520cm per m**35.00**

Lascaux Polyester Fabric P 110
Fine weave, natural colour. Similar properties to linen. **215g/m²**
Width: 314cm per m**75.00**
Rolls (10m+) Per m.**70.00**

***APF* Polyester Painting Canvas** **460 g/m²**
Fantastic addition to our range. Unlike our Polyester lining fabric, this can be successfully sized or primed with Lascaux. Perfect weave made from a spun polyester. Good weight with dull white colour. As with some natural fabrics, needs sanding after first size or prime to remove raised fibres.
Width: 160cm per m**12.95**
10 metre plus, per m**12.10**

Primed Linens

Schutzmann Primed Canvas

All our primed linens are made by **A Schutzmann** in Germany. A long established company with the highest reputation. Great care has been taken to use a first class acrylic primer and fabrics.

Limited supplies are available of the following.
Please call the shop for details.

V 2 Primed Cellulose **175 g/m²**
Made from reformed cellulose into a uniform thread and woven as linen. Very regular weave. No thread faults. Unusual fabric.
Width: 210cm (82½ ins.)
per m **28.50**
