## Acrylic Colours

### Lascaux Artist Acrylic Colours

These famous colours meet the most demanding requirements of artists thanks to their high concentration of pure pigments and special binders. They are distinguished by exceptional brilliance, intensity and depth of colour. All shades have excellent lightfastness. Paint dries to a satin matt waterproof finish. They do not yellow with age and do not crack. Shades vary in their essential transparency according to the pigment used.

Available in an assortment of 54 pure, brilliant hues.

### Lascaux Resonance® Gouache

Resonance Gouache is a new development from Lascaux with active properties: as a result of vibratory and aromatic components – so called bio information.

They have a smooth rich consistency for a wide range of uses. Resonance will be of particular interest to teachers and therapists, but can be used for a number of projects including interior painting. Made from lightfast pigments with a resoluble binder in 28 hues.

*bottles x 50ml	3.40
*bottles x 500ml	17.25
*set containing 12 x 50ml pots	37.20

### Lascaux Sirius® Primary System

A recent innovation from Lascaux, Sirius is a unique colour concept based on five primaries instead of the usual three. Mixed in equal parts, the 5 primaries produce a neutral, rich and vibrant black. A limitless exploration and creation of colour is possible with the primaries due to the precise balance of pigments used. Sirius colours are high in chroma and dry to a velvety matt, water soluble finish. Underlayers will not intermix when glazed over. Lascaux mediums and varnishes are perfectly compatible with Sirius colours to modify sheen, texture and finish. Colours are available individually. The 85ml set contains the five primaries (85ml): Magenta, Red, Yellow, Cyan and Ultramarine, White and Black, an empty bottle, mixing palette, prism strip and instruction booklet.

*Sirius® Set of 7 x 30ml	20.00
