

Acrylic Resist Etching

Working in collaboration with printmakers Robert Adam and Carol Robertson, Lascaux have developed a complete range of safer modern materials which can be used to replace traditional acid resists. These reliable new acrylic resists have been carefully designed to provide all the marks associated with traditional materials as well as relating closely to classic working methods.

2090 Lascaux Hard Resist

A ready-to-use clear hard resist (or ground) which is applied to the etching plate by brush. When it is dry it is highly acid-resistant. Lascaux Hard Resist can be drawn into with an etching needle, roulette, scraper, steel wool etc. It has a soft, waxy feel, allowing the needle to glide. It can be used on copper, zinc and steel.

2090	85ml	5.65
2090	500ml	17.55

2091 Lascaux Plate-backing Resist

This tough scratch resistant resist is painted onto the back and edges of the plate to prevent any biting during the etching process

2091	85ml	5.65
2091	500ml	17.55

2092 Lascaux Stop-out Resist

This coloured stop-out is easy and pleasant to apply and can be drawn into with etching tools when it is dry

2092	85ml	5.65
2092	500ml	17.55

2093 Lascaux Soft Resist

This slower drying resist is designed to offset easily and used to make soft crayon or pencil-like drawings, textures from collages and direct broad line drawings.

2093	85ml	5.65
2093	500ml	17.55

2094 Lascaux Wash Resist

This coloured granular resist is painted on the plate and used in conjunction with Lascaux Spray?aquatint to create unusual etched effects similar to water-colour or tusche washes..

2094	85ml	4.75
2094	500ml	14.75

2095 Lascaux Aquatint Spray Resist

This coloured resist is sprayed onto the plate to create a range of controllable tonal effects. It may be used in conjunction with the lift solution, other lift methods, stencils and Lascaux Wash resist.

2095	85ml	5.65
2095	500ml	17.55

2096 Lascaux Black coating for Hard Resist

These black coatings may be painted onto a dry layer of Hard resist so that the drawing made with etching tools is highly visible. The coloured coatings are not acid-resistant and are designed to be washed away with water before the plate is stopped-out or etched.

2094	85ml	4.75
2094	500ml	14.75

2097 Lascaux White coating for Hard Resist

These black coatings may be painted onto a dry layer of Hard resist so that the drawing made with etching tools is highly visible. The coloured coatings are not acid-resistant and are designed to be washed away with water before the plate is stopped-out or etched.

2097	85ml	4.75
2097	500ml	14.75

2098 Lascaux Remover

To strip dried Lascaux resists and collagraph materials from plates, Lascaux screenfillers from meshes and Lascaux Tusches from PVC sheets..

2098	500ml	11.05
2098	5 lt	59.70

3991 Lascaux ARE Set

Containing the following in 85ml bottles:

- 2090 Lascaux Hard Resist
- 2091 Lascaux Plate-backing Resist
- 2092 Lascaux Stop-out Resist
- 2093 Lascaux Soft Resist
- 2094 Lascaux Wash Resist
- 2095 Lascaux Aquatint Spray Resist
- 2096 Lascaux Black coating for Hard Resist
- 2097 Lascaux White coating for Hard Resist
- 2098 Lascaux Remover

9 x 85 ml bottles 41.80

The Prices are listed exclusive of VAT
