### Water-based Screenprinting

The Lascaux water-based system for screenprinting is safe, healthy and environmentally friendly. It is quick to learn and accessible to all. Lascaux has pioneered this system and it remains the most effective solution for artists and technicians demanding the best results and widest versatility. The entire range of Lascaux Acrylic Colours can be used with this system.

#### 2049 Lascaux Screenprinting Paste

Developed as an additive to Lascaux Colours that enables them to be used in Screenprinting techniques. Retards the drying and alters the flow properties for professional, excellent results. Enables a 100% water-based system. This is now a well-proven system that is easy and economical to use.

Lascaux Screenprinting paste can be used in conjunction with all the Lascaux Colour ranges.

#### 18020 Lascaux Tusche Wash

Handling qualities similar to ink and can be diluted to make graduated washes typical of stone lithography.

Bottles x 500ml	£21.25
-----------------	--------

#### 18021 Lascaux Tusche Wash / Spray

Can be sprayed from a simple airbrush and is required if Lascaux Lift solution is to be used.

Bottles x 500ml	£21.55
-----------------	--------

#### 18022 Lascaux Tusche Waterproof

Fast-drying, waterproof and scuff-resistant, this semi-viscous tusche has homogenous covering power and is useful for a broad range of painted marks. The diluted tusche dries to resemble 'toad-skin' washes usually found in zinc plate lithography.

Bottles x 500ml	£21.25
-----------------	--------

#### 18023 Lascaux Tusche Water-Soluble

This viscous tusche can be painted in smooth even layers which can be scratched away to create delicate non-printing lines. It can be used for a broad range of painted marks, offsetting and pattern-making. The diluted tusche dries to create characterful granular washes.

Bottles x 500ml	£21.25
-----------------	--------

#### 18024 Lascaux Tusche Soft Ground

Slow drying, viscous tusche designed to produce effects similar to soft ground in traditional etching. Using this method, soft non-printing drawings may be made and impressions of fabrics, leaves, feathers and other collage materials may be taken. The tusche can also be used for a broad range of painted marks and can be drawn into with paint shapers and other tools. The diluted tusche dries to create granular washes.

Bottles x 500ml	£21.25
-----------------	--------

#### 18035 Lascaux Lift Solution

Lascaux Lift Solution is used in conjunction with Lascaux Tusche Wash/Spray. The method is similar to 'sugar-lift' in traditional etching, and the marks made resemble classic sugar-lift marks. When the Lascaux Lift Solution is used to make an autographic positive, the painted marks will be non-printing and the sprayed Tusche background will print.

Bottles x 500ml	£18.95
-----------------	--------

#### 18040 Lascaux Tusche Diluting Liquid

A ready-to-use liquid for diluting Lascaux Tusches to alter their handling characteristics and to create delicate washes on positives.

Bottles x 500ml	£18.95
-----------------	--------
