

Manufactured in Barcelona by a small family business since 1933. They are an excellent 'mid-price' range of oil colours that we are very pleased to offer to UK Artists for the first time. The quality of these colours will exceed expectations and appeal to a wide range of artists. In the 60ml tubes there are 88 colours, using modern synthetic organic and traditional pigments. The range contains cadmium and cobalt pigments plus good alternatives in lower price groups.
