

The Sax family have been making Artists colours since 1889. The method of manufacture has changed little and colours are still made in small batches to ensure the highest possible standards. Recipes include combinations of oils balanced to each pigment for optimum performance. Colours display the individual characteristics of pigments and are a welcome alternative to homogenised ranges. We think these are the best Oil Colours you can buy.

A 1	Brilliant Yellow Light	D 45	Cerulean Blue
A 2	Brilliant Yellow Middle	C 46	Heliogen Blue
